

Duke University Medical Center

Department of Immunology Seminar Series Spring 2023

Tuesdays - 11:30 -12:30p - Jones 143

Zoom Meeting ID: 918 9491 2901

DATE	SPEAKER		Title	Host
1/3	Andrew Mendiola, PhD	Gladstone Institutes	Regulation of oxidative stress-producing innate immunity in neurodegenerative disease	Rapheal Valdivia
*1/10	Hao Wu, PhD	Harvard	Inner workings of the inflammasome engine	Ed Miao
1/17	Benjamin Croker, MD	University of California San Diego	Inflammatory cell death	Ed Miao
1/24	Open			
1/31	Open			
2/7	John Lukens, PhD	University of Virginia	Innate immunity at the crossroads of neurological health and disease	Ashley Moseman
2/14	Viven Maltez	NIH	TBD	Raphael Valdivia
2/21	Craig Maynard, PhD	University of Alabama at Birmingham	Immune Control of the gut mucus-associated microbiota	
**2/28	Shane Crotty, PhD	LaJolla Institute	TBD	Garnett Kelsoe
2/28	Matthew Vogt, MD, PhD	University of North Carolina	TBD	Ashley Moseman
3/7	Avery August, PhD	Cornell University	TBD	Micah Luftig
3/14	Frances Lund, PhD	University of Alabama at Birmingham	How does infection and autoimmunity shape the memory B cell compartment?	Ashley Moseman
3/21	Helen Goodridge, PhD	Cedars-Sinai Medical Center	TBD	Mari Shinohara
3/28	Dario Vignali, PhD	University of Pittsburgh	Immune Inhibitory Mechanisms in Cancer	Michael Krangel
4/4	Corrie Detweiler, PhD	University of Colorado	New Approaches to Anti-Infectives for Gram-negative Bacteria	Joern Coers
4/11	Elizabeta Gjoneska, PhD	NIH	TBD	Mari Shinohara
4/18	No Seminar			
4/25	Steven Josefowicz, PhD	Weill Cornell Medicine	TBD	Saskia Hemmers
5/2	Christopher Hunter, BSc, PhD	University of Pennsylvania	TBD	Raphael Valdivia
5/9	Bernard Amos Lecture			
	* Will be only zoom	** Special date & time
